

IRWIN

joran.

THE NEW FASTER SPEEDHAMMER PLUS

IT'S FAST...

...REALLY FAST.

TRUSTED BY PROFESSIONALS

It's fast. Real fast.

A series of major design innovations make the IRWIN new Speedhammer range of drill bits, for use with S DS* drills, faster and tougher. They benefit from our radical new twist on the single flute design to really speed up drilling times. With 28% greater flute capacity, drilling time is up to 30% faster. The innovations offer it all. Extra speed. Extra strength. Less clogging. And less effort to use. The new Speedhammer range - it's time to reconsider the double flute.

New flute design
Unique design ensures 28% faster removal of waste.

Speedhammer Plus
Speed optimised cutting angle.

SPEEDHAMMER PLUS.™

Up to 20% quicker and much easier.

Speed. That's what sets the Speedhammer Plus apart. With 28% greater flute capacity, the innovative design goes straight in and straight out. It removes dust and debris really fast. And it's particularly effective in uncured concrete due to clog-free performance.

*SDS is a registered trademark of Robert Bosch Tools.

SPEEDHAMMER MAX.™

Aggressive angles and up to 30% quicker.

In addition to the new single flute design, the Speedhammer Max has added advantages. For a start, it has a new 4-cutter carbide head design. The tough carbide allows the use of an extra short head to ensure drilling dust goes directly into the special single flute. We also tested extensively to find the optimum cutting angle of 53°. So you benefit from the most aggressive cutting performance with faster evacuation of waste.

Faster and safer in the long run.

With less time in your hands, vibration is less of an issue. So the Speedhammer Max is faster in the short term. And safer in the long term.

Old 90° head.

Speedhammer Max
New, patented head design with optimum 53° cutting angle for more aggressive cutting.

Straight Shank for MASONRY, GRANITE and CORDLESS.

Three straight shank options provide more choice. The new single flute design (already proven on the CORDLESS option) is now available on MASONRY and GRANITE bits. They also have new colours and new packaging labels to make identifying the right product much easier.

MASONRY - ideal for general purpose masonry drilling.

GRANITE - great for drilling into very hard materials.

CORDLESS - best performance in cordless drilling machines.

Researched to see what you want.

Several years of research went into identifying what you wanted most. That's why the new Speedhammer range delivers the extra speed and durability you asked for.

Outperforming the competition.

Take a look at the evidence. Against leading competitors, our unique design is the clear leader. See for yourself.

The best drill bits. The best choice.

The new Speedhammer range are purpose-designed drill bits made for faster drilling through concrete. Up to 30% faster. Whether for everyday use, for tougher applications or for specific jobs (like masonry, granite or cordless operation) IRWIN has the tough, easy-to-use and, above all, fast drill bit you need.

Speedhammer Range Options	New Unique Single Flute	28% Greater Flute Capacity	New Patented Head Design	New Packaging	New Drill Bit Colour
SPEEDHAMMER PLUS	✓	✓		✓	
SPEEDHAMMER MAX	✓	✓	✓	New Sticker	
Straight Shank					
MASONRY	✓	✓		✓	✓
GRANITE	✓	✓		✓	✓
CORDLESS	No Change (Existing Single Flute)	✓		✓	✓

Take the challenge.

We challenge you to test any new IRWIN Speedhammer product. Compare it to any other option. See how much slower and harder to use the double fluted alternatives are compared to this new design. For the long-life durability, speed and value, you won't find a better option. Try it. You won't go back.

Drilling & Cutting

IRWIN®

New Product - Key Facts

Product:
Holesaws - Bi Metal

■ IRWIN bi-metal hole saws have been designed for the professional, and made to provide long lasting performance

Application:
Metal
Wood
Nail embedded wood
Stainless steel
Sheet metal
Pipe

High Speed Cutting Edge
Super Hard Tool Steel Rc 65-66
Long Life

4/6 Variable TPI
Reduced Harmonic vibration - Long Life

Variable Gullet Depths
More efficient chip clearance

Thick backing plate
Gives robustness for the toughest jobs

Bi-Metal Construction
Long life, shock resistant

IRWIN Hole Saw Mandrel

SKU	Description
0753401001	ACC PILOT DRILL

SKU	Description
0753401002	IRWIN MANDREL 9.5MM SHANK 32-152MM

Drilling & Cutting

Tap & Dies

NO. S 89-1 "SKC" METRIC THREAD CARBON STEEL (SKS) 3-PC HAND TAP SETS 801

TAPER

METRIC PLUG

BOTTOMING

TAPER
8 to 10 threads chamfered for easy thread starting in rough materials.

PLUG
3 to 5 threads chamfered - general use when tapping to bottom of holes is not critical. (This is the most widely used type of tap.)

BOTTOMING
1 1/2 threads chamfered - use after threads have been started for tapping to bottom of hole.
