MA 615 Portable Bandsaw

SKU: 350001131

Applications

Tough, durable and long-lasting cutting machines

The MA 615 is an incredibly tough and hard-working portable bandsaw. The frame is jig welded 1/8 section steel for both strength and lightness. All wheels have dual sealed bearings to ensure years of smooth operation. Machine covers are formed in automotive specification ABS, which again adds to the durability and lightness of this product. The unit comes with a top quality 3/4 horse power 2 pole motor, mated to a precision machined gearbox for outstanding mechanical reliability.

Built to last - you'll never need to invest in another bandsaw ever again!

Enjoy many years of excellent service

The MA 615 really is very resilient. We have sold machines that operate in the most testing environments day in and day out – only pausing to have a worn blade replaced. These machines are used throughout the world by thousands of satisfied customers – so don't suffer downtime when you can have a machine that will remain trouble-free for years to come.

If you need a solid, reliable and portable bandsaw, then there is only one option - the MA 615.

The MA 615 Portable Bandsaw can cut through:

- Floor Panels
- Slate Block
- Steel Pipe
- Reinforced Concrete
- Rail Panels
